-------------------------------------	---

## Projects

### PORTFOLIO [🔗](#)

Developed a user-friendly and visually appealing portfolio website using React, Bootstrap, and custom CSS, ensuring a responsive and engaging experience across devices.

### HAIR SALON WEBSITE (Full stack project) [🔗](#)

Developed key components for a modern hair salon website using the MERN stack, focusing on full-stack development, user authentication with JWT, and API integration with Axios. Improved user retention by identifying and resolving major drop-off issues during testing. Utilized React, Bootstrap, Material-UI, and custom CSS for the frontend, with Node.js, Express, and MongoDB for the backend.

### TORNADO [🔗](#)

Developed "Tornado," a blog platform using React, Bootstrap, and custom CSS, featuring dynamic content loading, smooth navigation, and a responsive design for an intuitive user experience across devices.
