Projects

PORTFOLIO

My portfolio website, built with React, Bootstrap, and custom CSS, is responsive, visually appealing, and user-friendly. Email.js integration simplifies visitor contact.

CLIENT PORTFOLIO

Developed a dynamic full-stack portfolio platform using React, Node.js, Express, and MongoDB with Swiper.js. Built five interactive pages (Landing, Atlas, Blog, Scribble, Contact) with responsive UI. Integrated a Lexical rich-text editor featuring advanced formatting, image/link support, and a custom Material UI toolbar for seamless content creation.

HAIR SALON WEBSITE (Full stack project)

Built a full-stack MERN application with login, registration, and booking features. Implemented JWT authentication and Axios-based API integration. Designed a responsive UI using React, Bootstrap, and Material-UI, with a Node.js, Express, and MongoDB backend.

Pollution Details (MERN Stack Project)

A MERN-based web application facilitates vehicle pollution test management, enabling data entry, dynamic record viewing, expiry-based filtering and reporting, and automated WhatsApp reminders using Puppeteer, for efficient data handling and timely notifications
